

Sam Phillips, Answers Don't Come Easy

Tell me
What to do with this beating heart
While I bleed alone tonight
And it's alright if you don't say a word
Or make it all work right

I can wait
It's enough to know you can hear me now
Oh I can wait
It's enough to feel so near you now
And when answers don't come easy
I can wait

Mind's eye can only see so far
And reason can only guess
But knowing you see more than what meets the eye
Helps me see through my helplessness
