

Sam Phillips, Love Is Not Lost

Love is not lost

Boy
Boy meets girl
And you know the rest
Boy loses his girl
In their love's first test

Is this supposed to be a happy ending now
Is this the way it always goes

Girl
Throws in her heart
Like a losing hand
She uses the boys
'Cause she thinks she'll never find her man

Is this supposed to be a happy ending now
Is this the way it always goes
Well I think I want my money back
Because that's not all I know

Love is not lost
It's not a lost cause

I meet you
And you cut my heart
You shake my ideals
Until they fall apart

Have I lost it if I hope for something more
Than feeling fatalistic pain
And if true love never did exist
How could we know its name

Love is not lost
It's not a lost cause
Don't give up now
Love is not lost
