

Sam Roberts, When Everything Was Alright

There goes my mind
There goes my mind
And it's the same mistake I've made so many times
that my own mother thinks I'm blind
You can't be true
You can't be true
And I'm spendin' all my money making sure
that things are going right for you
Startin' all over to the time when everything was alright
When everything was alright
To the time when everything was alright
To the time when everything was alright
You got no love
You got no love
And don't come cryin' home, girl
when you realize that you ain't got no love
I'm comin' down, I'm comin' down
And I'm paranoid of everything
Yeah, girl you got me livin' underground
Startin' all over to the time when everything was alright
When everything was alright
To the time when everything was alright
To the time when everything was alright
My jaundice went away in 1997
They said your liver's fine now
but you're never goin' to heaven
cause of what you done
cause of what you done,
I said listen son, it's cause of what you done!
Yeah!
Startin' all over back then when everything was alright
When everything was alright
When everything was alright
To the time when everything was alright
To the time when everything was alright
