

# Sam Winch, I Got Some Moves

At one point it turned  
At one point it bent  
At one it hunched me at the shoulders  
broke me at the belt  
But I learned, that once in a while  
you're gonna have to take it  
upon your own self to be free  
free from these words  
these words that hold you  
they keep repeating them selves  
you think that your nothing  
think you are mean  
like it or not

you're gonna have to fight me  
you're gonna have to fight me  
better be ready to kill me  
first you're gonna have to fight me  
and I got some moves  
yeah I got some moves  
yeah I got some moves  
just for you

At one point I slept  
at all of the parks  
at one point I owned a big casino  
and played poker with all the sharks  
And I learned  
once in a while your gonna have to pay off  
your family debts to be free  
free from these bonds  
these bonds that break you  
that keep redeeming themselves  
you think that it's interest  
it's really a fee  
like it or not

gonna have to fight me  
you're gonna have to fight me  
better be ready to kill me  
first you're gonna have to fight me  
and I got some moves  
yeah I got some moves  
yeah I got some moves  
just for you

[whistle and fade]
