

# Samantha Fox, I Surrender

I've got a secret I can't keep  
That burns inside when I'm in my sleep  
I try to hide from your memory  
But you come back & it's haunting me  
What will I find in this fantasy  
If I go with me now will you set me free  
And I surrender to the spirit of the night  
I surrender (I surrender)  
The darkness is my lover  
And nights of pleasure  
So I surrender (I surrender) to the spirit of the night  
I take cover from the light of day  
But you keep calling and I obey  
I don't remember where I have been  
But you come back to me in my dreams  
What will I find in this fantasy  
If I go with me now will you set me free  
I surrender  
I go crazy when the sun goes down  
And it takes control as I hit the town  
I give my body to the heat of the night  
And there's no man judge if it's wrong or right  
Big city lights pouring down like rain
