

Samantha Mollen, Closer to you

Some people living in this world and don't know why
Some people activate hope in the right light
Imply and promise, a certify in me
When they put their best card forward
and then you see the deck, and then you see the deck,
and then you see the deck and you wanna hide
you're taking off my clothes
cause you think the gamble folds
by holding something inside
I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
but I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
Some people living in this world and don't know why
You should become one with yourself
before you try to be with someone else
to be with someone else
I'm bettin on you now be somebody
Wager change you're givin more
and then you see the deck, and then you see the deck,
and then you see the deck and you wanna hide
acceptance and confused
Compassity in truth I hope you read this in time
I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
but I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
another warning sign
how do I fix or face for this
how do I fix or face this
cause this lottery is mine
and I won't erase it
I won't erase it
I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
but I'm closer to you baby
I'm closer to you now
I'm talking with my movement
and talk with me somehow
