Yeah check it
What what wha
Uh y'all like a hey
Yeah uh
Come on uh
No doubt break it

I've been up and down uh
Been going round and round uh
I've been all over town what what
But I'll never ever find somebody for sure

Yes yes y'all left to right
Yes yes y'all we can rock it all night

Show me where I belong tonight all night
Give me a reason to stay
No matter if I go left or right left to right
I always come back to your love
Back to your love

I've been high and low uh
I don't know where to go go baby
Because I love you so you're like a hey
And I'll never ever find
Someone like you for sure

Yes yes y'all left to right
Yes yes y'all we can rock it all night

Show me where I belong tonight all night
Give me a reason to stay like a hey
No matter if I go left or right left to right

I always come back to your love
Back to your love

Love

No matter if I go left or right left to right
I always come back to your love
Yeah

Love

Back to your love

Break it

Go way left to right
Go way left to right
Go way I always find your love

Show me where I belong tonight
Give me a reason to stay
No matter if I go left or right
I always come back to your love
Show me where I belong tonight tonight
Give me a reason to stay
No matter if I go left or right left to right
I always come back to your love uh
Back to your love
