

Samantha Mumba, Isn't It Strange

Isn't It Strange
How life is so real
Everytime you meet someone you feel
Someone you hold Every night
The way that it makes you feel

Just A Kiss In The Dark
Made a change in my heart
Why did I wait so long
To find a love so very strong

It was so right from the start
Like a hit in the charts
How you walked The way you talked
The way you said you wanted me baby

Cos everytime you walk away
It Makes Me Wanna Say

Isn't It Strange
How life is so real
Everytime you meet someone you feel
Someone you hold Every night
The way that it makes you feel

Isn't It Strange
How life is so real
Everytime you come home at night
Well turn down the lights
Will Make it so right
The way that it makes you feel

Makes you feel

it's making eyes
I'm very slow
Let this be love Let it grow
you're reaching things within my heart
I never knew were there from the start
This feels so right
It cant be wrong
But I don't think I could carry on
If You left me for somebody else
Or leave me waiting on your shelf

Cos everytime you walk away
It Makes Me Wanna Say

Isn't It Strange
How life is so real
Everytime you meet someone you feel
Someone you hold Every night
The way that it makes you feel

Isn't It Strange
How life is so real
Everytime you come home at night
Well turn down the lights
Will Make it so right
The way that it makes you feel

Makes you feel

Isn't It Strange
How life is so real
Everytime you meet someone you feel

Someone you hold Every night
The way that it makes you feel
Isn't It Strange
How life is so real
Everytime you come home at night
Well turn down the lights
Will Make it so right
The way that it makes you feel
