

Same Difference, If You Can't Dance

If you can't dance baby if you can't dance [x2]

Friday night is coming

We're just living for the weekend

I know where we can go

All our friends will be there

All night long the music's playing

We'll be losing control

And when we step to the floor

DJ is gonna make sure

This is where the party started

[CHORUS]

If you can't dance baby

If you can't dance

Nobody's gonna stop and stare

It will be alright, cos baby tonight

The music's gonna take you there

If you can't dance baby if you can't dance

There's no competition

No rules, no conditions come on

Now they're playing our song

If you can't dance baby if you can't dance

Move to the new and the old school

The sun goes down and the beat goes on

There's something for everyone

If you can't dance baby if you can't dance

And when we step to the floor

DJ is gonna make sure

This is where the party started

[CHORUS]

If you can't dance baby

If you can't dance

Nobody's gonna stop and stare

It will be alright, cos baby tonight

The music's gonna take you there

If you can't dance baby if you can't dance [x2]

Just feel the beat in your heart

That's where the rhythm will start

And when we step to the floor

DJ is gonna make sure

This is where the party started, started

[CHORUS]

If you can't dance baby

If you can't dance

Nobody's gonna stop and stare

It will be alright, cos baby tonight

The music's gonna take you there

It will be alright, cos baby tonight

The music's gonna take you there

If you can't dance baby if you can't dance
