

Samhain, Kiss Of Steel

Car crash, the pressing of two lips
Hard steel and an accidental death
One action does you up
Kiss of steel

Press your face to the metal crash
Feel your nose and cheek bones crack
What action does you up
Kiss of steel

We sleep in a Rolls of love
The waiting ecstasy
We wait upon your speed
Kiss of steel

We're having a love affair with a Chevy in midair
Kiss of steel

We're having a love affair with a Chevy in midair
Kiss of steel

Let the mouth taste the silver spread
Let it ride and the rubber screech
One shot will do them up
Kiss of steel
