

# Sammath, Die Again

hunted down, become the prey  
no borders shall restrain my aggression  
there is nothing

who then shall save you  
you have been deceived

you have been deceived

grasp the will splendid hatred eternal

the adrenaline flows swiftly  
and violence controls my movements

die again, die again  
under the wings of blood  
die again, die again  
let the blood flow

shall pain be my mistress  
or create the blood filled path  
that i desire
