

Sammie, One Way Street

Sammie
Yeah
I'm back
Empire
Listen
Riding round, head down, thinking what to say
Cause inside girl I know its gone come a day when I
Gone have to tell you, baby
I think that I fell out of love
Started so innocent swear to God it was
We was just trying to be homies
But it stepped up on me
Now I cant fight it and theres no use to lying
She was with her friends
I, I met em somewhere
Hooked up with some friends cause I, I never go there
I wanted to see her more and more, I lost control
Now Im driving down this one way street babe
I know the way Im headed is dead wrong
But I just cant leave her love alone
Its got a hold on me, taking control of me
But I don't mind, one way street babe
I can see the traffic coming head on
But I'm weaving through it like it aint nothing
Risking my life for your loving
Speeding down this one way street babe
Yes I love you, but when Im with her
Girl it ain't no words that I can say to explain
The way that she makes me feel
Started with a kiss, a kiss became much more
It hurts to hear all this I know
But Im leaving it on the floor tonight
And I cant fight it, theres no use defying
She was with her friends
I, I met em somewhere
Hooked up with some friends cause I, I never go there
I started to need her more and more, I lost control
Now Im driving down this one way street babe
I know the way Im headed is dead wrong
But I just cant leave her love alone
Its got a hold on me, taking control of me
But I don't mind, one way street babe
I can see the traffic coming head on
But I'm weaving through it like it aint nothing
Risking my life for your loving
Speeding down this one way street babe
Risking everything for you, you
And I cant live my life without you, you
I live to make love to you, you
Im kissing every breath from you, you
Risking everything for you, you
And I cant live my life without you, you
I live to make love to you, you
Im kissing every breath from you, you
One way street babe
I know the way Im headed is dead wrong
But I just cant leave her love alone
Its got a hold on me, taking control of me
But I don't mind, one way street babe
I can see the traffic coming head on
But I'm weaving through it like it aint nothing
Risking my life for your loving
Speeding down this one way street babe
