

# Sammy Hagar, Inside Lookin' In

I must be stoned right outta my head  
I did not hear one thing that you said  
Lately I'm walkin' 'round in a daze  
This feeling comes and goes in big waves

I'm on the inside lookin' in  
Yeah, I'm on the inside that's where I've been

I see one soul just driftin' astray  
And I run to chase that demon away  
There's me, there's him, there's you and there's us  
All by the same name, so what's the fuss?

Huh, I'm on the inside lookin' in  
Here I am on the inside, wearin' thin  
Yeah, I'm on the inside lookin' in  
I'm on the inside "(inside)" lookin' in

Be careful don't kill the flame  
Unless you want to end the game  
Be careful don't go too deep  
The climb back may be a bit steep

I must be new around this place  
I do not recognize one face  
Ring in my ears so loud, I can't see  
Ringin' just like one UXB

I'm on the inside lookin' in  
Yeah, I'm on the inside, that's where I been  
Hey, I'm on the inside lookin' in  
Here I am on the inside, wearin' thin

Yeah, I'm on the inside lookin' in  
Come on to the inside, that's where I been  
Huh, to the inside  
I'm on the inside  
On the inside lookin' in

Come on in
