

Sammy Kershaw, A Memory That Just Won't Quit

(Walt Aldridge/Susan Longacre)

I saw your car today
It looked like it anyway
Those foreign makes all look the same
It took me way back to
That time when I watched you
Slam the door and drive away
Ever since that night I just can shake your memory
It everywhere I go
And every thing I see

It all over town
Tryin' to track me down
Makin' sure that your old flame stays lit
Just like a blue tick hound
Doggin' me around
Youe got a memory that just won quit

I've been out a time or two
But what a man to do
When your memory tags along
I tried to give it the slip
I got out in front of it
But somehow it always beats me home
It always seems to hunt me down
And chase me up a tree
No matter what I just can lose your memory

It all over town
Tryin' to track me down
Makin' sure that your old flame stays lit
Just like a blue tick hound
Doggin' me around
And youe got a memory that just won quit
Just like a blue tick hound
Doggin' me around
Youe got a memory that just won quit
