

# Sammy Kershaw, Haunted Heart

(Buddy Brock/Kim Williams)

Go down the road called Yesterday  
Take a left on a Lost Highway  
And make a right on Memory Lane  
Drive until you feel the pain

And at the river of tears take one last turn  
And cross the bridge that just won't burn  
A run down house is love's graveyard  
That's where you'll find my haunted heart

Well my haunted heart can't rest in peace  
It's buried with her memory  
And it's a living hell here after dark  
All alone with a haunted heart

Late at night a slamming door  
Shadows move across the floor  
Footsteps fall on silent stairs  
I hear her call but no one's there

Her photograph hangs by the bed  
A grim reminder love is dead  
A love I killed just won't depart  
It's living in my haunted heart

Well my haunted heart can't rest in peace  
It's buried with her memory  
And it's a living hell here after dark  
All alone with a haunted heart  
I said I'm all alone with a haunted heart
