

Samsaya, Good with the Bad

I do it Monday morning,
I really need to think it straight
I'm done being stressed about decisions I need to make
Want a change of pace from fighting the [?] every day
But you know what they say

When you're up
You don't look down
And when down
You wanna come around
And emotional roller-coaster straight to the ground

I take the good with the bad
the good with the bad
Don't wanna let my life pass away
I take the good with the bad
Don't wanna be sad
Tomorrow is not today

**

Coz if tomorrow I should die
I know I, I really lived my life
Coz I know
When you're up
You don't look down
And when down
You wanna come around
And emotional roller-coaster straight to the ground
