

Samson, Take Me To Your Leader

Comin' down to earth
And smiling 'cos you know, I know
The mother ship has left you
Bleeding in the cold
I need a revelation
Open up and come with me
Take me to your leader
Got a problem, want it solved

Watcher of the skies
Look into my eyes
Watcher of the skies
Look into my eyes

I'm lookin' around and I wanna be up there
I'm lookin' around and I wanna be up there

You taught me how to fly
I'm getting high, I wanna cry
I can feel your saucers
Burn into my soul
I need a revelation
Open up and come with me
Take me to your leader
Got a problem, want it solved

Going home tonight
To bathe in everlasting light
The image in the starlight
Burns into my brain
I knew your astral plain
Was layin' down the way for me
Take me to your leader
Got a problem, want it solved
