

Sanctuary, Termination Force

[Written by: L. Rutledge, W. Dane & J. Sheppard]

There's power here, we shall join and make a stand
Fear lives inside your mind and it whispers my command
Our leaders they tell us right and wrong
Rebellion is close at hand

Who are you to say what's right
Spit in your face, we will uprise

Violate, dominate, feel the force to terminate

Who are you to take our lives

Violate, dominate, feel the force to terminate

And so it's done, chaos surrounds this world gone mad
I dream of peace and love
No turning back it's not in their plan
It's over before it began
It's over I've seen the end

We will uprise, take my hand
Termination force will stand

Violate, dominate, feel the force to terminate

We will uprise, take my hand

Violate, dominate, feel the force to terminate
Violate, dominate, feel the force to terminate
