Sanctus Real, All I Want

So early morning when you come to me
Comfort me
Stop rewind and...
Play back that melody
No early warning when You come to me
Comfort me
I don't know 'cause i've been told
I just believe
We don't want to work 'cause it never works out
We don't want to talk 'cause words
Get around
All i want is to
Bring it back to love
I've got, you've got, we've gotta give it to
The one who made me
So sweetly coming back to memory
Done for me
I've got something that they won't believe
But we don't want to come
'cause we'll never come around
We don't want to love
'cause we never learned how
All You have is all i need
All You have has set me free
