

# Sanctus Real, Closer

I'm not satisfied in this lifetime  
I'm following you to the other side  
There's nothing that can change my mind  
You're all I need  
You're the only tie that binds my heart  
Away from you I'm falling apart  
We need to be closer than we are  
You're all I need  
So what can I do to get closer?  
I know there is more my heart can bear  
I give you control 'cause I need you  
To take me there  
Like a bird flying south I'm seeking you out  
And there's no rope that can tie me down  
I'm running home, I'm a slave set free  
You're all I need  
I am waiting  
Draw me closer  
I am waiting  
Make me stronger
