

# Sanctus Real, Eternal

I know this life I lead will pass away  
Along with every other earthly thing  
So I will set my heart on a higher plain  
Where my treasure lies with You  
And in this marriage of our hearts  
There is no death do us part  
For You are eternal  
And I am eternally Yours  
And I could never lose Your love to sickness  
Oh I could never lose You to divorce  
And there's no concept of abandonment  
For I am safe within Your arms  
And in this marriage of our hearts  
There is no death do us part  
For You are eternal  
And I am eternally Yours  
Oh I am eternally Yours  
I am eternally Yours  
(No abandonment)  
(Safe within Your arms)  
I never had enough until I found You  
I never knew love until I met You  
I never had enough until I found You  
And now I have everything  
And in this marriage of our hearts  
There is no death do us part  
For You are eternal  
And I am eternally Yours  
And I am eternally Yours  
Oh I am eternally Yours  
I could never lose You  
No I will never lose You  
I could never lose You  
And this life will pass away  
But You will never change  
Oh this life will pass away  
Oh but You will never change
