

Sanctus Real, Where Will They Go?

How many times did I not stand up for you?
Face to face with someone I hardly knew?
Where did they go from there?

Lost in the world
And we may never meet again
God, will you send another light to lead them in?
Where will they go from there?

Love, show me the way
When I'm afraid to say the right thing
I'm a stone,
Frozen in place
I need your grace to show me how to love

How many lives could be changed
If I'd convey all of the words that I was scared to say
Show me the way from here

Love, show me the way
When I'm afraid to say the right thing
I don't know where they will go
As long as I know I have shown Your love

I am lost without Your love
