Sanctus Real, Where Will They Go?

How many times did I not stand up for you? Face to face with someone I hardly knew? Where did they go from there?

Lost in the world And we may never meet again God, will you send another light to lead them in? Where will they go from there?

Love, show me the way When I'm afraid to say the right thing I'm a stone, Frozed in place I need your grace to show me how to love

How many lives could be changed If I'd convey all of the words that I was scared to say Show me the way from here

Love, show me the way When I'm afraid to say the right thing I don't know where they will go As long as I know I have shown Your love

I am lost without Your love
