

Sand Box, Curious

Caught a train, took a road
Searching for a pot of gold
Never knew, never told
And I wonder where you are... curious

There was a time, I knew a man
Who traveled in a caravan
He said, "seek and you shall find"
But I haven't found

And I wonder where you are...curioous
And I wonder where you are...safe I trust
And I wonder where you are...curious

Hey what's that?, far away
(ooooohhhh)
Same mirage, as yesterday
(ooooohhhh)
Hey there mister got a drug to take my mind away

And I wonder where you are...curious
and I wonder where you are...safe I trust
and I wonder where you are...curious

Fourty years down the road
(you say, "I know")
Haven't found that pot of gold
(all these faces I don't know)
Getting tired, i'm going home

And I wonder where you are...curious
And I wonder where you are...safe I trust
And I wonder where you are...
