

# Sandra Nasic, The Name of My Baby

Come on to me oh boy again  
Show me your private ways to sin (Oh, ooh)  
Love does not always make a sense  
And I'm not afraid of your intents (Oh, ooh)  
This bitter love will last forever  
Mine all mine now or never  
And you can't get me out of your head  
This bitter love will last forever  
Mine all mine now or never  
And you can't get me out of your head  
Say the name of my baby (Aah)  
You've gotta save the name of my baby (Aaah, rock n roll)  
Don't want to hurt you there  
But I'd love to see you aware  
Say the name of my baby  
I want to remind  
Ooh oh yeah (2x)  
Maybe we're not supposed to be  
But your eyes and your body belong to me (Oh, ooh)  
We walked the road just half the way  
And I'm now afraid I want to stay (Oh, ooh)  
This bitter love will last forever  
Mine all mine now or never  
And you can't get me out of your head  
Say the name of my baby (Aah)  
You've gotta save the name of my baby (aah, rock n roll)  
Don't want to hurt you there  
But I'd love to see you aware  
Say the name of my baby  
I want to remind  
So you want to suffer with me again  
I need your pulse onto your veins  
And you'll beat with the rhythm of you life  
I believe I took the right way  
To feel my gut again  
You can feel me right  
Yes, I believe I took the right way  
To feel my gut again  
So you can feel me right  
Just say the name of my baby  
You've gotta save the name of my baby (Aaah)  
Just say the name of my baby  
You've gotta save the name of my baby (Aaah, rock n roll)  
Don't want to hurt you there  
But I'd love to see you aware  
Say the name of my baby  
I feel numb  
I want to remind  
Say the name of my baby!
