

# Sandy Denny, Take Me Away

Such sweet love is so hard to find  
Look around, these are troublesome times  
The sun beats down on our hunger and thirst  
It would soon all be over if we let it be worse

Chorus

Take me away, take me away  
Take me away, take me away  
If not for you how would I keep going  
No one to be near, no good fortune to know  
Take my hand, make me feel stronger  
You're a man - progress is slow

(Chorus)

There will be rain clouds, for harvest to grow  
We'll find the rain clouds, and the rivers will flow  
Leave what is past, search for the future  
Leave this black dream for it's high time to go

(Chorus)
