

# Santana feat. Dido, Feels Like Fire

I'm telling you it's over  
Now there's an angel holding me  
My way's easy  
Even if you're fallen  
Oh you're struggling  
There's still beauty in what we do

Bridge:

So que sera  
Let's go sailing on  
There's a wise man  
In every fool

Chorus:

I say come back  
Come in from the cold  
Into the warm  
I feel like fire  
Guiding you back home  
As darkness falls  
So everyone stands in line  
'Cause they wanna stay alive  
To wait alone no dog no bone  
And then you find it's over  
Still it tears your heart  
To slip away from the crowd  
But if you have what it takes  
To return to where  
All the world knows your name

[Bridge][Chorus]

I say come home  
Leave it all behind  
And settle down  
I feel my love  
Can give me what I want  
For all time
