

Santogold, Casablancas, & N.E.R.D., My Drive Thru

Pharrell:

I want you

Do you want me, too?

I have one question:

Can I help you?

Now watch me

And what I do

Now thank you for coming through my drive-thru

Casablancas:

When youre haunted by the demons thatll never let you rest

Not shy in front of crowds, but shy in front of just one guest

Not dumb enough to win at their game

but not smart enough to dumb it down and take it away

Its black & white like space at night

If you wanna be like us youd better work everynight

Santogold:

One question, whats your impression?

Now with a walk like mine, I'm a big presence

So make your move real slow my minds a weapon

I said just move real slow, no second guessing

I find your uproast so adolescent

I may look young, but your game is pre-pubescent

So watch my feet Im known for my great steppin'

You wanna keep up gotta show me somethin

Casablancas:

Look at all the leaders over on the playground

Always being up where we could watch

(Im goin' after you)

The answer to the question I dont understand

is the word that I am never

(Im going after you)

And if your happiness is watching TV all night long

...? job of dealin other people in a song

I am here to change your goals

I regret it, but theyre not done

Santogold:

You wonder, oh, how do I inspire?

Got the world spinnin 'round inside my palm

Dont hate me you know they got you wired

You better show up ...?

'Cause we all wanna dance, just wanna dance dance,

We wanna dance, just wanna dance

'Cause we all wanna dance, just wanna dance dance

We wanna dance, just wanna dance

Casablancas:

Its summer in the city

Its summer in the city

Wed like to dance, to dance with you

Dont waste your time with one or two

You time it right, the summer night

You fall in love at every light

Santogold:

You wonder, oh, how do I inspire?

Got the world spinnin 'round inside my palm

Dont hate me, 'cause you know they got you wired

You better show up ...?

'Cause we all wanna dance, just wanna dance dance,

We wanna dance, just wanna dance

'Cause we all wanna dance, just wanna dance dance

We wanna dance, just wanna dance
