

Saosin, It

You'd better learn that this will not blow over
And Over
High above, they're taking over you
And you should know
I will not let you go
(Let you go)
What is my body worth?
Was there a price-tag before?
There's something greater then
What is my body worth?
Was there a price-tag before?
It's not gonna change you
We walk around
But never turn to see what we have done
(What we have done)
We choose our moves so carefully for you
(Carefully for you)
I will not let you go
(Let you go)
What is my body worth?
Was there a price-tag before?
There's something greater then
What is my body worth?
Was there a price-tag before?
It's not gonna change you
What is my body worth?
Was there a price-tag before?
It's not gonna change you
I believe in nothing
I believe in nothing at all
I believe in nothing
I believe in nothing at all
What is my body worth?
Was there a price-tag before?
There's something greater then
What is my body worth?
Was there a price-tag before?
It's not gonna change you
What is my body worth?
What is my body worth?
