Sara Evans, Show Me The Way To Your Heart

I've been trying to break down your walls
But I don't know how to get through
You say that you want me
You say that you need me
But baby, I need more from you

You gotta take my hand and
Lead me to where you are
You know I'll follow
Just show me the way to your heart

I know it's hard for you to trust again
But you've just got to believe
I will never lie to you
and I will never hurt you
Baby I'm asking, please

You gotta take my hand and
Lead me to where you are
You know I'll follow
Just show me the way to your heart

You think you've locked your heart away
Baby, I hold the key
Believe me when I say my love can set you free

Take my hand and
Lead me to where you are
You know I'll follow
Just show me the way to your heart

Take my hand and
Lead me to where you are
Baby
You know I'll follow
Just show me the way to your heart
