

# Sara James, Brighter Day (feat. Ben Cristovao)

You bring back the summer  
Bless me with the rain  
Show me all your colors  
Chase the dark away  
You bring back the  
Too much hate and bad energy  
Too many new enemies  
Too much shaming I let it be  
Imma be what I wanna be  
I've been bad at speaking  
I've been silent with my friends  
But your style is different  
And you got me trippin  
Cloudy  
Why is it so damn foggy  
Chemicals in my body  
Get me out of haze  
You bring back the summer  
Bless me with the rain  
Show me all your colors  
Chase the dark away  
You bring back the summer  
On my knees I pray  
I'm in love with the sunshine  
It's a brighter day  
You bring back the  
Nana to me  
Nana in my body  
Nana to me  
You bring back the  
Summer  
We vibing  
Anywhere you wanna go  
Say it  
We riding  
I just wanna feed my soul  
Got all the gang right here  
(Got all the gang right here)  
Hmm  
Tell em we no de care  
(Live like we have no fear)  
Yeah yeah yeah yeah  
Sing along and live for the good times  
So go ahead and miss me with the bad vibes yeah  
Tell me why the rain keep pouring  
Need a break and we need more loving  
Cause we all about energy  
Capture all the memories  
Give thanks for my life  
Oh yes  
Throw it all up  
I'm blessed  
Cloudy  
Why is it so damn foggy  
Chemicals in my body  
Get me out of haze  
You bring back the summer  
Bless me with the rain  
Show me all your colors  
Chase the dark away  
You bring back the summer  
On my knees I pray  
I'm in love with the sunshine  
It's a brighter day

You bring back the  
Nana to me  
Nana in my body  
Nana to me  
You bring back the  
Nana to me  
Nana in my body  
Nana to me  
You bring back the
