

Sara Jaroszyk, To Be Wild At Heart

Closer and closer I'm coming
They say my shadow is a mystery
Femme fatale is how they call me
You'll be restless when I'm around.

You light my cigarette slowly
And offer me a drink, a sweet, sweet wine
If you're wild at heart darling
Let me see your burning mind

Sin city is where
I found you, you found me
In the moonlight we drown
Night will lead us
To infinity.

I feel I feel it, it's coming
This funky thrill all around my neck
And from my head to toes I'm burning
Won't you cool me down?

Smoke and heat surround us
I never knew you'll be the one who takes
All my body all my soul
I'm addicted to loving you

Sin city is where
I found you, you found me
In the moonlight we drown
Night will lead us

Sin city we meet
I am yours and you are mine
Like lovers in space
Night will take us away.

Silver lights upon us
Through the endless skies we sail.
Silver lights upon us
Through the endless skies we sail.

Like lovers in space.
