

# Sara May, Spin It Baby

And this time we survived  
Our drier mouth still catching breath  
Wiping sweet slowly breathe  
I love how you gets me high  
It feels good  
Spin it baby one more time  
I just love  
How the world goes now around  
Even thought  
It's taking from me all I've got  
When I'm stound  
When I'm high  
One more time I wanna know  
Feels so right can it be wrong  
Feeling you under skin  
Without it, I won't be me
