

# Sara May, True Love

We had it, baby  
And now you're sitting by my side  
Feelin' empty  
Or have I lost my mind?  
Could read your soul  
So don't you know how I feel  
When you're over me  
I don't know where  
We'd made mistake so tell me  
Do you still care  
C'mon tell me that I'm wrong  
Don't make, make me wonder  
If you still love me  
'Cause you need to know...

True love  
It's not always easy  
Sometimes it hurts like a blow  
True love  
It's not always daydream  
But that's how it is with love...

I've gotta say it  
'Cause I don't wanna let you go  
We've been faithless  
Broke eachother hearts  
But now I know  
I'm gonna fight for this love  
Now I bare my soul  
You are the One  
I'm not afraid to say it  
Won't hide, won't run  
C'mon tell me what you want  
Don't make, make me wonder  
If you still love me  
'Cause you need to know...

True love  
It's not always easy  
Sometimes it hurts like a blow  
True love  
It's not always daydream  
But that's how it is with love...
