

# Sarah Blasko, Don't You Eva

Don't You Eva

You've got a way with words  
You've got a way that makes me feel so complicated  
Your message meets the floor  
The horizon meets your horse and your deliberated  
I'm only clearing my throat

Don't u eva wish for just one thing that you might never see  
Don't u eva wish for just one thing that you might never know  
You might never know

You've got a way with words  
You've got a way that makes me feel so complicated

A wall keeps you from me  
You'd raise the door just so you could find the key  
The wolves are waiting

Don't U Eva wish for just one thing you might never see  
Don't U Eva wish for just one thing you might never know  
You might never know

I'm underground  
As the words just spin around  
and you hunt them down  
try to pin them to the ground  
there will be no sound  
as the words just tumble out  
and you won't be found  
by the time you hit the ground

You've got a way with words  
You've got a way with words  
You've got a way with words  
(with words, with words, with words)

Don't u eva wish for just one thing you might never see  
Don't u eva wish for just one thing you might never know  
You might never know  
(Dont u eva wish for, dont u eva wish for)  
You might never know  
(Dont u eva wish for, dont u eva wish for)  
Oh you might never know
