

Sarah Blasko, No Turning Back

I was involved
Willing or not
Born in the spark of an eye
A city on fire
Is out of control,
I put it down to the match
In my hand
On my heart
Struck out once again
Against my will
My own right mind
Knocked down in the sand

But there's no turning back
There's no turning back
Stop those tears in their tracks
'Cos there's no turning back
So come and you will
To sit on your hands
Did you only want me to laugh
To sit for a while
A talk and a drink
I followed much to well
I carried on
I broke the ice
It melted once or twice
I put my heart
Right on the line
Now it's time, my love, it's time

For there's no turning back
There's no turning back
So stop those tears in their tracks
'Cos there's no turning back

And then i'm in your arms i'll try to relax
Don't want to lie awake all night
Wondering where we're at
Oh this tossing and turning
Won't clear these blues away
When I am longing just to hear you say

There's no turning back
There's no turning back
So stop those tears in their tracks
'Cos there's no turning back

There's no turning back
There's no turning back
So put your heart in my hands
'Cos there's no turning back
Oh there's no turning back
Oh there's no turning back
I said there's no turning back.
