

Sarah Brightman, Colder Than Winter

It's colder than winter
Right here in my heart
Lord, I'm gonna miss her
She's torn me apart
I couldn't make you love me
I couldn't give you any more
It's colder than winter
Since you closed the door
It's colder than winter
I'm freezin' inside
And my tears won't be bitter
Even though our love died
I couldn't make you love me
I couldn't give you anymore
It's colder than winter
Since you closed the door
Every time the sun sets
I shed another tear
And the lonelier I get
Wishing you were still here
I couldn't make you love me
I couldn't give you any more
It's colder than winter
Since you closed the door
It's colder than winter
Since you closed the door
