

# Sarah Connor, Beautiful

[verse 1]

It's bigger than the universe  
Be thankful for the miracles  
It seems so unconceivable  
That life gives birth  
We came in the exact same way  
That's why we're standing here today  
This one is dedicated for the ones that said

[climb]

You are alive  
I see the innocence in your eyes  
Whenever you cry or smile  
You're such a wonderful child  
It's like you're heaven sent  
You stole the night replaced it with sunlight  
And that's why we're thankful that you came into our life

[chorus]

Because you're beautiful, so beautiful  
How special you are  
A creation of nature you are  
Because you're beautiful, so beautiful  
How precious you are  
You're like an angel that fell from a star  
A creation of nature you are

[verse 2]

You're feeling so responsible  
Cause anything is possible  
I never needed anything  
Cause you were there  
A smile that changes everything  
The first step that makes you think  
This one is dedicated to the ones who said

[bridge]

A miracle is when a child is born  
A living thing so fragile and so small  
Dependent on its parents will  
To do good and be strong  
I wanna dedicate this very simple song
