

# Sarah Connor, I'm Gonna Find You

## Verse 1:

Lonely days I tried to find you  
Didn't know how lost I was  
So many years I was so blind too  
Confusing neediness for love

## Bridge:

I believe in magic  
but that's not what I need  
Looking for the meaning of reality

## Chorus:

I know  
I'm gonna find you  
The day I come you'll open up that door  
I know  
I'm gonna break through  
As easy as just walking in  
A halfway open door  
I'm gonna find you

## Verse 2:

Maybe we've met in places  
or maybe that was just a dream  
Inner eyes reveal what you fail to see  
'til later babe  
or are they future memories?

## Bridge

## Chorus

## C-Part:

I know my heart is too young  
to sing the same old song  
but I long for you...  
Someone have never known, baby  
what would a wise heart say  
to make the crazy sane  
or will you recognize  
my image in my eyes?

## Chorus
