

Sarah Connor, Why Does It Rain

(written by Rob Tyger, Kay Denar)

verse 1

Summertime has come and gone
I had you here by my side
The autumn wind was blowing strong
I grabbed your arm, held you tight

bridge

Now the air is getting cold at night
And you say you have to leave
On the weather report there is
No Christmas in white
But it's you and the snow that I need

chorus

Why does it rain on Christmas?
When I'm wishing for some snow
Why can't you stay, if you'll miss me?
Do you really have to go?

I know when Santa Claus is coming
He will give me something
But all I need is you and the snow

Why does it rain on Christmas?
I don't know

verse 2

Everyone is having fun
But I just can't realize
How can this life go on and on
Without you here by my side

bridge

chorus

c-part

I just want to feel snowflakes
Falling down on my skin
Build a snowman on Christmas
Let the winter begin

We'll be walking together
'Cross the ice on the lake
If it can't last forever
Give me only one day
If it can't last forever
Give me only one day
If it can't last forever
Give me only one day

chorus

I know when Santa Claus is coming
He will give me something
But all I need is you and the snow

Why does it rain on Christmas?
Rain on Christmas
Why does it rain?
I don't know
