

Sarah Harding, Threads

Bet you think now you're gone
Gotta figure out
Loose lips, ain't ships thinking blowing down
Kiss me up babe
Chipping all the lights cause I'm medicinal course
Don't think I don't know what all this bullsh*t for
Legally blonde but it ain't worth dying for
Ride it like a rodeo

I wanna dance about
And break your gut and let go
You gotta let your body shake, you gotta let go

Let me down
Cut em up like razor blade
Slip it back
Here a fact, next time I got played
Let's not bad play
Chipping all the lights cause I'm medicinal course
Don't think I don't know what all this bullsh*t for
Legally blonde but it ain't worth dying for
Ride it like a rodeo

I wanna dance about
And break your gut and let go
You gotta let your body shake, you gotta let go

I wanna dance about
And break your gut and let go

You gotta let your body shake, you gotta let go

I wanna dance about
And break your gut and let go
You gotta let your body shake, you gotta let go
