

Sarah Masen, Love

You wanna know
All about
Where you can get some
You need to know fast
There is no doubt
You wanna know
Where you can find some love
Cause everybody wants it

Everybody needs it
Nobody gets the meaning of it
Not without love
Love is a giving thing
Love is a forgiving thing like spring
Love
And you know you can trust in love

A man once said to me
A long time ago
He lost his true love
But how can that be
Maybe later he'll see that
All that lives on is love
And everybody wants it

Everybody needs it
Nobody seems to get it
All confused about it
But to get it
You have to just give it
You have to just live it

Once in a while
You open up just like a child
See things fresh and new
I wish this for you
I wish this for you

Everybody wants it
Everybody needs it
Everyone deserves it
If you're sad
Even if you're mad
