

Sarah Masen, Love Is Breathing

Life's come out from inside
All caught up in a brand new smile
Alive

Love's come out from inside
Carefully willingly
And you are alive so alive

Love is breathing like a child come out
Life suspended in the gravity of care
Never ending does the child come out

Hope's come out from inside
And we are all caught up
Trying to hide
But you are alive more alive

Love is breathing like a child come out
Life suspended in the gravity of care
Never ending does the child come out

You're more alive when you try
Growing down, enter the kingdom!, child
Move the buildings to the fire
And color our most desperate cries with ease, please, child

Love is breathing like a tree on fire
Consuming violent and tender life
Love is breathing - alive - breathing
