

Sarah McLachlan, Shelter (Violin Mix)

Crowded into the smallest spaces
While outside all of nature cries
It's known to be cruel and unfair but there is no place to hide
I've seen a part of people that I ever really wanna share
Oh I've seen a part of people that I never knew was there

Shelter
(Give them shelter from the coming storm)
Give them shelter
(Give them shelter from the coming storm)

I can't sleep I'm haunted by their faces
The sadness in their eyes
It hurts so much to see them helpless
It makes me want to cry
But still there is so much left unanswered
For so many innocent lives
But close the door and I'll let in nobody
And only the strong will survive

Shelter
(Give them shelter from the coming sstorm)
Give them shelter
(Give them shelter from the coming storm)

I've seen the anger and I've seen all the dreams
Watched their existence torn apart at the seams
Though I may seem helpless I will do all that I can do
I've seen a part of people that I ever really wanna share
Oh I've seen a part of people that I never knew was there

Shelter
(Give them shelter from the coming storm)
Give them shelter
(Give them shelter from the coming storm)
Shelter
(Give them shelter from the coming storm)
Give them shelter
(Give them shelter from the coming storm)
