

Sarah Sadler, Best Thing

You lift me up
You take me high
You hung the stars, the moon, and my sky
I love everything about You
The way that You move, the way that You are
You'll always be the king of my heart
I love everything about You

Chorus:

More than words to say it
I'm not the same, everything changed
When I found You
You're the best thing
That ever happened
You're my saving grace
Because You love me
Now and forever I will sing Your praise
You're the best thing

You're so good to me
I can't count the ways
You touch my life everyday
I love everything about you
All my desired, all of my plans
I know You'll hold them safe in Your hands
I love everything about You

Chorus

Every moment in Your presence
My heart and soul, my every thought
Gets saturated
Will You catch me, I am falling
More and more in love with You
