

# Sarah Sadler, Dreams Of You

Love can be a dream  
I have dreamed of you  
Sometimes there are dreams that must come true  
Time and time again  
Dreams have brought me here  
I open up my eyes to find you near  
So much beauty  
So much pain  
All to lose and your love to gain  
And I dream...

Chorus:

You have me, you hold me  
You know my heart of old  
You love me, me only  
And you are mine alone  
It could all come true  
If only you would see the me  
That dreams of you

On and on it goes  
Hope that never dies  
A faith I know will bring me to your side  
There will be a night  
There will come a day  
Dreams will end and love will have its way  
Me for you and you for me  
Just the way I knew it would be  
And I dream...

Chorus

There are times I've nearly found you  
Days I'm sure I've been around you  
Even if we're worlds apart  
My dreams will reach your heart

Chorus
