

# Sarah Sadler, Hide Me In Your Love

It was an endless summer  
I remember you were there  
Just to win my heart  
Should've never ended  
I'm undefended  
I was yours, I was safe  
I want that again

Chorus:

Hide me in your love again  
Be my sanctuary  
Hide me in your love  
When you cover me  
Then my heart is free  
Hide me in your love

There was a fire burning  
As the leaves were turning  
I moved on but no one took your place  
Nothing stirred the passion  
Now I'm asking  
Take my heart, make it yours  
I want you again

Chorus

Hold me closer  
I need to feel you  
Want to know you're by my side  
Be my shelter  
My love forever  
Hide me in your love
