

Sarah Sadler, Say You Do

Say you do
Say you don't
Say you won't
That you're never gonna
Its a war
Its a mess
Just say yes
If you really wanna
You're just like me
So attracted
So distracted

Chorus:
If we could just believe
The truth will set us free
Why do we live so half-heartedly?
If we could change these minds
We'd turn around to find
A life above mediocrity

I have tried to adore
All the things
That I don't approve of
I have tried to attain
All the things
That the world is made of
You're just like me
So insistent
So resistant

Chorus

Tell me there's more than this
Skin deep kind of happiness
Say that there's more to life
Than what I've lived

Chorus
