

Sasha, Blown Away

Verse 1:

I got a lot to give
You got a lot to take
You're like a shark inside
You would eat me up alive
I'd touch the devil's lips
I'd sell my soul to you
Your wish is my command
My desire is your demand

Bridge:

Take good aim
My heart is waiting
Kill me with a kiss
Come on, do it like this

Chorus:

I get blown away
When you shoot that smile
I get knocked to ground
By a single word
I get ripped apart
When you play my heart
Locked and loaded
I get blown away

Verse2

You cast a spell on me
Demons are in my head
Angels are scared to fly
When you're in town, I wonder why!
You are so beautiful
You're all that i desire
I think it's time to feel
Something new and something real
(bridge)
(chorus)

Blow me out
Blow me in
I will always let you in
Check me out
Check me through
Ill be waiting there for you
Come on, do it like this

(Chorus)
