

# Sasha Lazard, Tell Me Why

Love - such a simple word  
one we long to hear  
til it's over

Love - has its way with me  
I fall too easily

why must there be love  
and why give me love if not forever  
won't you tell me why  
won't you tell me why

men - in the guise of love  
give us lust for love  
so convincing

Then - when they win your heart  
they just break  
it in pieces

why must I feel love  
and why give me love if not forever  
won't you tell me why  
won't you tell me why

I remember  
the way you made me tremble  
I was so (so) astounded  
by the thought that I had found you  
a dream come true

won't you tell me why  
won't you tell me why

why must there be love  
and why give me love if not forever  
oh why must I feel love  
won't you tell me why  
won't you tell me why
